

# **Technical Manager** **for a blue-chip MNC**

Chevron, the market leader in the local lubricant industry, is looking for a strategic, hands on 'technical genius' who has the passion to outperform the rest. Reporting to the Head of Technical, the **Technical Manager** will play an important role in providing technical support to build the Reliability Based Lubricants (RBL) platform and sustain Chevron's market leadership position in Sri Lanka. The position entails a clear career path for the right candidate.

You will be involved in developing and implementing initiatives to maintain Product Stewardship and Product Integrity through close collaboration with Chevron Technical Experts. You will work with Supply Chain and Sales & Marketing Teams to provide fit-for-purpose lubrication solutions for industries, handle customer queries on correct applications and product performance and function as a subject matter expert in imparting lubrication knowledge across the value chain.

Candidate should possess a Bachelor's Degree in Science (majoring in Chemistry)/ Chemical Engineering or equivalent qualification, clock minimum 5 years of relevant industry experience (prior experience in Chemicals or Lubricants industry would be an added advantage), possess sound knowledge of formulations / testing and be prepared to travel extensively as per business needs.

If the positions excites you please visit our Careers Page at [www.chevron.lk](http://www.chevron.lk) and apply within 10 days of this advertisement. Please note that only shortlisted candidates will be notified.
