

TERMINAL PROJECT ENGINEER

Litro Gas Lanka Ltd, a trusted brand with over 150 years of excellence and more than 80% market share. We are seeking a result-oriented, self-motivated male candidate for the position of Terminal Project Engineer to oversee a major expansion project.

Key Responsibilities:

- Prepare technical scopes and feasibility reports.
- Manage tendering, procurement, and project coordination.
- Liaise with stakeholders for approvals and project execution.
- Oversee commissioning and project handover.
- Support terminal operations and safety initiatives.

Requirements:

- BSc. in Mechanical/Marine/Civil Engineering.
- MSc. in Project Management with 10+ years of experience, preferably in offshore oil & gas projects.
- Strong leadership, communication, and risk management skills.
- Fluent in English and Sinhalese.

An attractive benefits package awaits the right candidate.
