

Our client is a prominent Sri Lankan corporate entity with a strong global presence in the renewable energy sector, backed by a legacy of over two decades. The company has established itself as a leading developer, investor and operator of renewable energy projects. In pursuit of new opportunities and to enhance their activities, our client is seeking a dynamic, accomplished individual to serve as:

# CHIEF FINANCIAL OFFICER

**Reporting to the Chief Executive Officer, the selected candidate will be expected to:**

- Provide visionary and strategic leadership to achieve company objectives.
- Drive business strategies, expand the current portfolio and explore new opportunities both locally and internationally.
- Oversee operations to ensure alignment with the company's strategy and mission.
- Monitor organizational performance through regular analysis and reporting.
- Liaise and negotiate with local and international banks as well as other financial institutions to secure favorable financing terms, manage banking relationships and support the company's strategic financial initiatives.
- Establish and maintain strong relationships with key stakeholders including industry partners, financial institutions and government entities.
- Direct the company's financial planning including setting goals, managing budgets and ensuring full tax compliance in coordination with tax consultants.
- Lead and develop a high-performing workforce through effective leadership and motivation.
- Uphold the highest legal, ethical and regulatory standards across all functions.
- Support the Board of Directors with timely management reports, variance analyses and strategic recommendations.
- Introduce and oversee risk management systems, addressing sector-specific risks such as policy changes and project execution risks.
- Stay abreast of global economic trends and financial markets to provide informed, strategic guidance for the Group.

## Requirements:

- Member of ICASL, CIMA, ACCA, or CFA, with more than 12 years of post-qualification experience, including at least 5 years in a senior managerial role, preferably within a large group or conglomerate.
- A degree in Engineering / Physical Science coupled with an MBA from a reputed Institute would be a definite advantage.
- Age between 45 to 50 years.
- Proven leadership capabilities with a strong orientation towards strategic thinking, innovation, and cross-functional collaboration.
- Knowledge and experience in renewable energy, infrastructure or other capital-intensive industries is strongly preferred.
- Entrepreneurial mindset with outstanding organizational and leadership skills.
- Excellent communication skills in English, both written and spoken.
- Willingness to travel overseas when required, in line with the demands of the role and international business operations.

The successful candidate will be offered a competitive remuneration package and other benefits, along with excellent prospects for career advancement.
