

JOIN THE MOST AWARDED BANK IN SRI LANKA

With an enduring vision of being the most technologically advanced, innovative and customer friendly financial organization, we, the Most Awarded Bank in Sri Lanka, continue to progress steadily while being the first Sri Lankan bank to be listed amongst the Top 1000 Banks in the World.

Our unparalleled record of success is supported by an unmatched suite of digital offerings and superior standards in service, stability and performance. We are poised to ascend to even greater heights in the near future.

Engineer – IT Security

JOB PROFILE

- Conduct web and mobile application security testing (SAST/DAST) and VAPT on applications, APIs, and supporting infrastructure.
- Perform security testing in CI/CD pipelines to ensure automated vulnerability scanning and compliance checks during development and deployment.
- Coordinate vulnerability management, risk-based prioritization, and remediation tracking.
- Conduct security reviews of new applications, APIs, and integrations for compliance with security standards and frameworks (e.g., PCI DSS, CBSL).
- Collaborate with cross-functional teams to implement secure coding and DevSecOps practices.
- Monitor emerging vulnerabilities, threats, and advisories relevant to applications and infrastructure.
- Prepare technical reports and executive summaries on identified risks and mitigation strategies.

APPLICANT'S PROFILE

- Bachelor's degree in Information Security, Cybersecurity, Computer Science, or a related field.
- Professional certifications such as CEH, OSCP, Security+, GWAPT, eJPT are an advantage.
- 2-3 years of experience in application security testing, VAPT, and vulnerability management.
- Hands-on experience with SAST/DAST tools (e.g., Checkmarx, Burp Suite, OWASP ZAP, Fortify).
- Experience in CI/CD pipeline security testing (Jenkins, GitLab CI, Azure DevOps, GitHub Actions).
- Knowledge of OWASP Top 10, secure coding practices, and application threat modeling.
- Familiarity with network and infrastructure security, including firewalls, WAF, SIEM, and vulnerability scanners.
- Proficiency in scripting/automation (Python, PowerShell, Bash) is a plus.
- Strong analytical, communication, and collaboration skills, with high attention to detail.

Successful candidate will be provided with an attractive remuneration package, commensurate with benchmarked financial institutions.

Interested candidates are invited to apply for the position, all applications should be routed through our corporate website.
