

Growth is a mindset. Ready to nurture yours?

Seylan Bank, one of the most progressive banks in the country, is seeking a competent and forward thinking person to fill the following vacancy. This is your opportunity to join our dynamic team and move towards your career goals.

Officer Data Analyst –Internal Audit

Job Responsibilities

- Develop hypothesis for different business areas based on their specific business objectives in order to analyze data and identify exceptions.
- Analyze exceptions arising from analytical procedures through the statistical applications based on developed hypothesis and identify activities that may be suspicious or indicative of potential fraud or control weaknesses.
- Extracting data from the existing Data Warehouse to fulfill the internal audit assignments.
- Prepare reports and presentations to the management and carryout any other analytical related tasks assigned by the Head of Internal Audit.

The Person

- Minimum 05 years experience in Banking. Exposure to auditing/data analysis would be preferred.
- A Bachelor of Science Degree in Data Science or any other qualification in Data Science from a recognized university/institution.
- Hands-on experience with statistical and analytical tools such as Python, R, Power BI or Tableau
- Branch banking experience would be an added advantage.
- Good analytical skill and knowledge in SQL quarry language.
- Ability to work independently and meet strict deadlines.
- Strong communication skills both oral and written coupled with good interpersonal and analytical skills.

If you fulfill the above criteria, we invite you to email your cv along with a recently taken photograph to careers@seylan.lk within 7 days of this advertisement.

Only the shortlisted candidates will be contacted by Seylan HR
