

PLANT MANAGER

Litro Gas Lanka Ltd is a trusted national brand with a proud 150 year heritage in business, leading Sri Lanka's LPG market with over 80% market share. Our products are essential to the daily lives of millions of Sri Lankans, and we ensure uninterrupted supply through the widest and most robust island-wide distribution network in the country.

We are seeking a highly competent and experienced professional to lead and manage all operations at our Filling Plant. The ideal candidate will possess a strong background in plant operations management, proven leadership abilities, and a commitment to operational excellence, safety, and continuous improvement.

Key Responsibilities:

- Lead and oversee all operational and administrative activities of the filling plant, ensuring safe, efficient, and reliable operations while achieving daily and monthly filling schedules.
- Ensure full compliance with all HSE and regulatory requirements, maintaining high standards in plant safety, housekeeping, and equipment integrity.
- Plan, coordinate, and manage production schedules, preventive maintenance, manpower allocation, and procurement of materials and services to ensure uninterrupted operations.
- Collaborate effectively with terminal operations, finance, procurement, sales & marketing, and quality assurance teams, as well as external service providers, to optimize plant performance and resolve operational issues promptly.
- Lead, mentor, and motivate the plant workforce by promoting safety awareness, teamwork, technical skill development, and a culture of accountability and continuous improvement.
- Monitor and control operational costs, drive process optimization initiatives, and recommend infrastructural and technological improvements to enhance plant productivity and align with company objectives.
- Prepare and present performance reports to management, highlighting key operational metrics, improvement areas, and compliance status.

Requirements :

- A UGC recognised **B.Sc. Engineering Degree** in Mechanical, Chemical, Industrial Engineering or equivalent qualification in a related field.
- A Master's degree would be an added advantage.
- Minimum 8 years of experience in plant operations, including at least 4 years in a managerial role, preferably within oil & gas or industrial manufacturing with candidates not exceeding 45 years of age.
- Proven ability to manage and optimize industrial processes, ensuring compliance with safety, quality, and regulatory standards.
- Strong leadership, decision making, and team management skills, with experience in mentoring and motivating a diverse workforce.
- Excellent communication, interpersonal, and problem-solving skills, with the ability to coordinate effectively across multiple functions.
- Additional qualifications or certifications in process safety or Quality Management Systems will be an added advantage.

Join us in shaping the future of Litro where your skills, passion, and dedication will be valued and rewarded. Don't miss this opportunity to be part of a dynamic and thriving organization.

An attractive remuneration package and career advancement opportunities await the right candidate.
