

We are Sri Lanka's premier private sector commercial bank. Our visionary journey has taken us beyond the realms of business as we have made a conscious effort to go where no bank has dared to go; from downtrodden villages long-forgotten, to the world across the shores. The driving force behind this epoch-making journey is our strong team of achievers, affectionately known as the Hatna Family. As we continue to make history and move ahead, we invite dynamic and ambitious individuals to join us in our trailblazing banking saga.

## We are looking for bright minds to help us create a world of happy experiences.

# ANDROID MOBILE APP SENIOR/LEAD ENGINEER

### Job Role

This role requires strong hands-on engineering expertise, leadership capability to guide developers, and deep understanding of mobile security, performance, scalability, and modern Android engineering practices.

### Key Duties and Responsibilities

- Lead end-to-end Android app development using modern architecture and clean coding practices.
- Provide technical leadership to mobile engineers through coaching, mentoring, and code reviews.
- Drive engineering best practices for quality, security, performance, and reliability.
- Own mobile app architecture (modular design, scalability, maintainability).
- Implement secure integrations with backend services using API-first principles.
- Ensure high app stability through crash monitoring, performance tuning, and root cause analysis.
- Work closely with Product, UX, QA, DevOps, and Security teams to deliver high-quality releases.
- Support CI/CD pipelines, automated testing, and release processes.
- Participate actively in Agile/Scrum ceremonies and drive delivery accountability.

### Educational Qualifications

- A Degree from a recognized University in the fields of Computer Science, Software Engineering/IT or relevant field
- A Master's Degree in Computer Science, Software Engineering/IT or a relevant field will be an added advantage.

### Work Experience

- Minimum 5+ years of experience in the software engineering
- Experience with mobile security tools and wrappers such as RASP, anti-tampering, jailbreak/root detection will be an added advantage.
- Experience in regulated environment such as banking or payments will also be an added advantage.

### Skills and Competencies

- Android Development Expertise
- Mobile Architecture and Design
- Mobile Security Engineering
- Performance and Stability
- Backend Integration
- Testing and automation
- Technical Leadership
- Coaching and mentoring
- Agile and cross-functional collaboration
