We are Sri Lanka's premier private sector commercial bank. Our visionary journey has taken us beyond the realms of business as we have made a conscious effort to go where no bank has dared to go; from downtrodden villages long-forgotten, to the world across the shores. The driving force behind this epoch-making journey is our strong team of achievers, affectionately known as the Hatna Family. As we continue to make history and move ahead, we invite dynamic and ambitious individuals to join us in our trailblazing banking saga.

We are looking for bright minds to help us create a world of happy experiences.

MANAGER - THREAT ANALYSIS AND FORENSIC INVESTIGATIONS

Job Role

Manager - Threat Analysis and Forensic Investigations, provides strategic leadership in safeguarding the organization's information and cyber assets. The responsibilities include driving threat analysis, overseeing forensic investigations, and ensuring robust protection against cyber threats. Balancing business requirements, design and deploy cutting-edge security measures to fortify the Bank's defenses while maintaining its security posture. Additionally, optimize existing security solutions to enhance overall security and operational efficiency.

Key Duties and Responsibilities

- Lead and oversee Bank-wide threat analysis and proactive threat hunting activities in line with the annual Information Security Plan.
- Identify emerging cyber threats and coordinate timely remediation actions with relevant stakeholders.
- Provide security advisory input during system design, application development, and infrastructure changes.
- Threat analysis and proactive threat hunting.
- Lead and oversee Bank-wide threat analysis and proactive threat hunting activities in line with the annual Information Security Plan.
- Identify emerging cyber threats and coordinate timely remediation actions with relevant stakeholders.
- Provide security advisory input during system design, application development, and infrastructure changes.
- Oversee implementation and effectiveness of technical, preventive and detective security controls.
- Ensure compliance with regulatory, statutory, and internal Information Security requirements.
- Support internal, external and ISMS audits, penetration tests, and vulnerability assessments.
- Oversee the enhancement and maintenance of the Bank's forensic and security lab environment.
- Evaluate new security technologies and tools and support technical evaluation committees.
- Ensure timely renewal and effective utilization of threat hunting and forensic tools.
- Prepare and present periodic threat analysis, forensic investigation, KPI/KRI, and risk reports to the Information Security Committee (ISC) and senior management.
- Ensure accurate dashboards, metrics, and documentation are maintained and reported on a timely basis.
- Lead, mentor, and develop a team of threat hunters and forensic analysts.
- Promote a culture of continuous learning, technical excellence, and high performance.
- Participate in recruitment, performance management, and capability development initiatives.
