

We are Sri Lanka's premier private sector commercial bank. Our visionary journey has taken us beyond the realms of business as we have made a conscious effort to go where no bank has dared to go; from downtrodden villages long-forgotten, to the world across the shores. The driving force behind this epoch-making journey is our strong team of achievers, affectionately known as the Hatna Family. As we continue to make history and move ahead, we invite dynamic and ambitious individuals to join us in our trailblazing banking saga.

We are looking for bright minds to help us create a world of happy experiences.

SENIOR iOS ENGINEER

Job Role

This role requires strong hands-on engineering capability, deep iOS development knowledge, and the ability to deliver production-grade apps with strong focus on security, performance, stability, and customer experience.

Key Duties and Responsibilities

- Develop and maintain iOS applications using modern iOS engineering practices.
- Build secure, scalable, and maintainable mobile features aligned with business needs.
- Work closely with product, UX, backend, QA, and security teams to deliver quality releases.
- Implement API integrations and ensure reliable communication with backend services.
- Perform code reviews, improve coding standards, and ensure clean architecture practices.
- Optimize app performance, reduce crashes, and improve overall stability.
- Support CI/CD, automated testing, and app release processes.
- Participate actively in Agile/Scrum ceremonies and contribute to sprint delivery.
- Troubleshoot production issues and drive root cause analysis with permanent fixes.

Educational Qualifications

- A Degree from a recognized University in the fields of Computer Science, Software Engineering/IT or relevant field
- A Master's Degree in Computer Science, Software Engineering/IT or a relevant field will be an added advantage.

Work Experience

- Minimum 3+ years of experience in the software engineering
- Experience with Firebase/Crashlytics/analytics tools will be an added advantage.
- Experience in regulated environment such as banking or payments will also be an added advantage.

Skills and Competencies

- iOS Development Expertise
- Architecture and Code Quality
- Performance and Reliability
- Backend Communication
- Testing and Automation
- Team Collaboration
- Ownership and Problem Solving
- Agile Participation
