Group Chief Executive Officer

Role Overview

Reporting to the Board of Directors, the Group Chief Executive Officer will provide strategic leadership and overall direction to the organization including the laboratory operation, ensuring sustainable growth, clinical excellence, operational efficiency, and strong corporate governance. The role demands a leader who can balance commercial acumen with patient-centric values, while upholding the highest standards of ethical and professional practice.

Candidate Profile

- Experience serving as Chief Executive Officer, Managing Director, or in an equivalent C-suite or senior hospital administration leadership role would be advantageous.
- Strong background in healthcare, hospital management, or large-scale service organizations (**healthcare experience will be a distinct advantage**).
- Demonstrated expertise in strategic planning, financial stewardship, and operational leadership.
- Exceptional people leadership, communication, and stakeholder management skills.
- Strong academic and professional credentials; postgraduate qualifications preferred.

Key Responsibilities

- Provide strategic leadership and execute the Organization's long-term vision and business strategy.
- Oversee clinical, operational, financial, and administrative performance across the Hospital including the laboratories.
- Strengthen corporate governance, enterprise risk management, and regulatory compliance.
- Drive growth, innovation, and service excellence across healthcare delivery.
- Foster a high-performance culture and build strong leadership capability across the organization.
- Engage effectively with key stakeholders, including the Board, regulators, clinicians, partners, and the wider healthcare ecosystem.
- Work closely with the Board of Directors to achieve strategic and organizational objectives.

Remuneration

An attractive and competitive remuneration package, commensurate with qualifications and experience, will be offered to the successful candidate.
