With an enduring vision of being the most technologically advanced, innovative and customer friendly financial organization, we, the Most Awarded Bank in Sri Lanka, continue to progress steadily while being the first Sri Lankan bank to be listed amongst the Top 1000 Banks in the World.

Our unparalleled record of success is supported by an unmatched suite of digital offerings and superior standards in service, stability and performance. We are poised to ascend to even greater heights in the near future.

JOB PROFILE

- Oversee administration, performance monitoring and optimization of IBM i systems to ensure resilience and high availability.
- Drive adoption of AI technologies and stay current with emerging LLM and AIOps trends to reduce manual effort and modernize data center operations.
- Perform first-level troubleshooting, escalation and end-to-end incident follow-up.
- Participate in system upgrades, migrations and scheduled primary / DR site switchovers.
- Manage vulnerability assessments and remediation tracking; enforce IBM i security hardening and ensure governance and regulatory compliance through periodic security reviews, monitoring and adherence to internal and industry standards.
- Ensure operations comply with regulatory requirements, industry best practices and internal policies.

APPLICANT'S PROFILE

- Bachelor's degree in Engineering, Information Technology or related field from a UGC approved university.
- Minimum 5 years of experience in data center operations.
- Proficiency with AIOps tools and platforms is required.
- Experience in IBMi (AS/400) administration / operation is advantageous.
- Sound communication, interpersonal skills and organizational skills including attention to details.

Successful candidate will be provided with an attractive remuneration package, commensurate with benchmarked financial institutions.

Interested candidates are invited to apply for the position, all applications should be routed through our corporate website.
